

**To Make Notebook Section Tabs**

Print on colored paper. This page has enough tabs for 6 students. Cut into row strips and distribute one row of tabs to each student. Students should cut out on solid black lines, fold on dashed line, then open the tab and apply glue to the back side. Place the tab on the edge of the notebook page so that it overlaps about 1/4 inch. Fold the tab so that it is glued to both front and back of the notebook paper and sticks out of the notebook about 1/4 inch.

**To Make Notebook Section Tabs**

Print on colored paper. Write in your own titles before copying, or have students write on the tabs as needed. Students should cut out on solid black lines, fold on dashed line, then open the tab and apply glue to the back side. Place the tab on the edge of the notebook page so that it overlaps about 1/4 inch. Fold the tab so that it is glued to both front and back of the notebook paper and sticks out of the notebook about 1/4 inch.
